The warranty does not cover normal wear and tear, color changes or variations in finishes over time, cuts or scratches, or damage caused by impacts or accidents, whether intentional or unintentional, and any other consequential or incidental damages.

Cleaning Instructions

Our products use synthetic laminated fronts and worktops which can be cleaned easily using ordinary household cleaning products with warm water and a mild washing-up liquid or methylated spirit. We recommend that the solid wood ranges plus extras (e.g. cornice, light baffle, worktop edging etc.) are cleaned using only a damp cloth with luke-warm water. In case of stubborn marks, e.g. grease spots, cream or felt pen marks or something similar methylated spirit diluted by 1:1 with water is well suited for removing. Furniture polish or wax is definitely not recommended.

It is important that the protective clear lacquer on solid wood materials is not removed or damaged by the cleaning agent. Please avoid using very strong cleaning products or scouring powder. For moving parts such as hinges and drawer runners, oil them every two years.
